

Novellus Systems Confirms Guidance Provided During the November 26, 2002 Mid-Quarter Update Conference Call and Webcast

SAN JOSE, Calif., Nov. 27, 2002—Novellus Systems, Inc. (Nasdaq: NVLS), the productivity and innovation leader in advanced deposition and surface preparation processes for the global semiconductor industry, today confirmed the following guidance given during its mid-quarter update conference call related to its fourth quarter 2002:

While calculation of the effect of SpeedFam-IPEC results from the close of the merger through December 31, 2002, using SpeedFam-IPEC First Call data, would indicate a SpeedFam-IPEC loss of approximately \$0.01 per share to Novellus, Novellus believes that the actual loss related to the acquisition of SpeedFam-IPEC will approximate \$0.04, due to purchase accounting rules which prohibit revenue recognition of certain items included in deferred revenue at the close of the merger.

- Does not give effect to potential restructuring charges related to the acquisition of SpeedFam-IPEC.
