

# Novellus Systems Reports Second Quarter 2007 Results

SAN JOSE, Calif., July 16, 2007-Novellus Systems, Inc. (NASDAQ: NVLS) today reported net sales and results of operations for its second quarter ended June 30, 2007. Net sales for the second quarter were \$416.3 million, up \$19.4 million or 4.9 percent from first quarter 2007 net sales of \$397.0 million and up \$6.3 million or 1.5 percent from second quarter 2006 net sales of \$410.1 million. Net income for the second quarter was \$57.3 million, or \$0.45 per diluted share, up \$3.6 million or 6.6 percent from first quarter 2007 net income of \$53.8 million and up \$4.6 million or 8.8 percent from second quarter 2006 net income of \$52.7 million.

Bookings in the second quarter were \$332.2 million, down 19.4 percent over first quarter 2007 bookings of \$412.2 million. Shipments of \$436.4 million in the second quarter represent an increase of \$47.3 million or 12.2 percent from \$389.1 million reported for the first quarter 2007. Deferred revenue at the end of the second quarter was \$107.9 million, an increase of \$18.5 million or 20.7 percent from \$89.4 million at the end of the first quarter 2007.

Cash, cash equivalents, restricted cash and short-term investments as of June 30, 2007 were \$1.0 billion, essentially unchanged from the first quarter 2007.

The financial measures set forth above that present revenue on a shipments basis and bookings, are not in accordance with U.S. generally accepted accounting principles (GAAP). We believe that these non-GAAP financial measures provide further insight into the results of operations and enhance the consistency and comparability of those results to results in prior periods because they assist shareholder understanding of the effects of certain charges and benefits on the quarter's results.

"The second quarter revenues and earnings came in as expected, however bookings and shipments have come in at the low end of our guidance as some absorption of excess capacity is taking place. Despite the shortfall on our shipments we have continued to control expenses and have taken preemptive actions to improve operations," said Richard Hill, Chairman of the Board and CEO. "Also, during the quarter we have announced several major new products that are targeted to deliver productivity gains our customers need to compete and win in the Semiconductor Industry."
