

Lam Research Corporation Announces Financial Results for the Quarter Ended March 28, 2010

FREMONT, Calif., Apr 21, 2010 (BUSINESS WIRE) -- Lam Research Corporation (NASDAQ:LRCX) highlights for the March 2010 quarter were:

U.S. GAAP/Ongoing

(in thousands, except per share data and percentage)

- Revenue:	\$	632,763	
- Operating Margin:		23.6	%
- Net Income:	\$	120,301	
- Diluted EPS:	\$	0.94	

Lam Research Corporation today announced financial results for the quarter ended March 28, 2010. Revenue for the period was \$632.8 million, gross margin was \$292.9 million and net income was \$120.3 million, or \$0.94 per diluted share, compared to revenue of \$487.2 million, gross margin of \$223.2 million and net income of \$69.6 million, or \$0.54 per diluted share, for the December 2009 quarter. Shipments for the March 2010 quarter were \$735 million compared to \$519 million during the December 2009 quarter.

The Company's ongoing results for the December 2009 quarter excluded certain costs for previously announced restructuring activities, the reversal of accrued liabilities due to final settlement of the remaining liabilities for Internal Revenue Code Section 409A related expenses, and the impairment of an investment. There were no adjustments to U.S. GAAP results to determine "ongoing" results for the March 2010 quarter. Management uses the presentation of ongoing gross margin, ongoing operating expenses, ongoing operating income, ongoing operating margin, ongoing net income, and ongoing net income per diluted share to evaluate the Company's operating and financial results. The Company believes the presentation of ongoing results is useful to investors for analyzing business trends and comparing performance to prior periods, along with enhancing the investor's ability to view the Company's results from management's perspective. A table presenting a reconciliation of ongoing results to results under U.S. GAAP is included at the end of this press release and on the Company's web site.

Ongoing net income was \$120.3 million, or \$0.94 per diluted share in the March 2010 quarter compared to ongoing net income of \$60.7 million, or \$0.47 per diluted share, for the December 2009 quarter. Ongoing gross margin for the March 2010 quarter was \$292.9 million or 46.3%, compared to ongoing gross margin of \$218.5 million, or 44.8%, for the December 2009 quarter. The sequential increase in gross margin was primarily due to improved factory utilization as a result of increased business volume and a more favorable product mix. Ongoing operating expenses for the March 2010 quarter remained essentially flat compared with the December 2009 quarter.

Lam Announces Financial Results for the March 2010 Quarter

The geographic distribution of shipments and revenue during the March 2010 quarter is shown in the following table:

Region	Shipments		Revenue	
North America	8	%	10	%
Europe	5	%	6	%
Japan	11	%	11	%
Korea	27	%	24	%
Taiwan	37	%	33	%
Asia Pacific	12	%	16	%

Cash and cash equivalents, short-term investments and restricted cash and investments balances were \$843.8 million at the end of the March 2010 quarter, compared to \$830.6 million at the end of the December 2009 quarter. Cash flows from operating activities were approximately \$109.3 million during the March 2010 quarter. Deferred revenue and deferred profit balances at the end of the March 2010 quarter were \$238.4 million and \$138.2 million, respectively. Lam's deferred revenue balance does not include shipments to Japanese customers, to whom title does not transfer until customer acceptance. Shipments to Japanese customers are classified as inventory at cost until the time of acceptance. The anticipated future revenue from shipments to Japanese customers was approximately \$23 million as of March 28, 2010.

"Shipments for the March 2010 quarter represented an all-time high for Lam Research reflecting market share gains in both our etch and clean businesses, supported by strong operational performance of the factory and supply chain," said Steve Newberry, Lam's president and chief executive officer. "The continued success of the spin-clean business, evidenced by the recent shipment of our 3,000th spin-clean process chamber, is complemented by our linear-clean and plasma-based bevel clean technologies. Our clean products represent a technology and productivity leadership portfolio that is advancing the success of our adjacent-market growth strategy," Newberry concluded.

Lam Announces Financial Results for the March 2010 Quarter

Statements made in this press release that are not statements of historical fact are forward-looking statements and are subject to the safe harbor provisions created by the Private Securities Litigation Reform Act of 1995. Such forward-looking statements relate, but are not limited, to the anticipated revenue from shipments to Japanese customers, the continued success of our spin-clean business, and our continued ability to maintain strong operational performance of our factory and supply chain and to execute successfully our adjacent market growth strategy. Some factors that may affect these forward-looking statements include: business conditions in the semiconductor industry and the overall economy; the efficacy of Lam's plans for reacting to those conditions; changing customer demands; the actions of Lam's competitors; and the challenges presented by the development and marketing of new products. These forward-looking statements are based on current expectations and are subject to uncertainties and changes in condition, significance, value and effect as well as other risks detailed in documents filed by us with the Securities and Exchange Commission, including specifically our report on Form 10-K for the year ended June 28, 2009 and the reports on Form 10-Q for the three months ended September 27, 2009 and December 27, 2009. These uncertainties and changes could cause actual results to vary from expectations. The Company undertakes no obligation to update the information or statements made in this press release.

Lam Research Corporation is a major provider of wafer fabrication equipment and services to the world's semiconductor industry. Lam's common stock trades on The NASDAQ Global Select MarketSM under the symbol LRCX. Lam is a NASDAQ-100(R) company. For more information, visit www.lamresearch.com.
