# Lam Research Corporation Announces Financial Results for the Quarter Ended September 25, 2011 

FREMONT, CA -- (MARKET WIRE) -- 10/19/11 -- Lam Research Corporation's (NASDAQ: LRCX) highlights for the September 2011 quarter were:

Lam Research Corporation
Financial Highlights for the Quarter
Ended September 25, 2011
(in thousands, except per share data and
percentages)
U.S. GAAP Non-GAAP

Revenue: \$ 680,436 \$ 680,436

Operating Margin: $\quad 14.6 \% \quad 14.9 \%$

Net Income: \$ 71,838 \$ 78,265

Diluted EPS: $\quad \$ 0.58 \$ 0.63$

Lam Research Corporation today announced financial results for the quarter ended September 25, 2011. Revenue for the period was $\$ 680.4$ million, gross margin was $\$ 283.9$ million ( $41.7 \%$ ), and net income was $\$ 71.8$ million, or $\$ 0.58$ per diluted share, compared to revenue of $\$ 752.0$ million, gross margin of $\$ 338.5$ million ( $45.0 \%$ ), and net income of $\$ 125.9$ million, or $\$ 1.01$ per diluted share, for the June 2011 quarter. Shipments for the September 2011 quarter were $\$ 580$ million compared to $\$ 793$ million during the June 2011 quarter.

In addition to U.S. Generally Accepted Accounting Principles (GAAP) results, this commentary contains nonGAAP financial measures. The Company's non-GAAP results for both the September 2011 and June 2011 quarters exclude certain costs for restructuring and impairments and the amortization of convertible note discount. Additionally, the Company's non-GAAP results for the June 2011 quarter exclude tax expense associated with legal entity restructuring. Management uses non-GAAP operating income, operating expenses, operating margin, net income, and net income per diluted share to evaluate the Company's operating and financial results. The Company believes the presentation of non-GAAP results is useful to investors for analyzing business trends and comparing performance to prior periods, along with enhancing the investors' ability to view the Company's results from management's perspective. Tables presenting reconciliations of non-GAAP results to
U.S. GAAP results are included at the end of this press release and on the Company's web site at http://investor.lamresearch.com.

Non-GAAP net income was $\$ 78.3$ million, or $\$ 0.63$ per diluted share, in the September 2011 quarter compared to non-GAAP net income of $\$ 142.3$ million, or $\$ 1.14$ per diluted share, for the June 2011 quarter. Gross margin for the September 2011 quarter was $\$ 283.9$ million, or $41.7 \%$, compared to gross margin of $\$ 338.5$ million, or $45.0 \%$, for the June 2011 quarter. The sequential decrease in gross margin was primarily due to less favorable product mix and reflects the impact of lower factory utilization as a result of the decline in business volumes. Non-GAAP operating expenses for the September 2011 quarter were $\$ 182.8$ million compared with the June 2011 quarter of $\$ 179.5$ million resulting from our continued increase in research and development activities.

The geographic distribution of shipments and revenue during the September 2011 quarter is shown in the following table:

| Region | Shipments | Revenue |
| :--- | :---: | :---: |
| -------------------------------------- |  |  |
| North America | $22 \%$ | $19 \%$ |
| Europe | $10 \%$ | $11 \%$ |
| Japan | $16 \%$ | $18 \%$ |
| Korea | $27 \%$ | $25 \%$ |
| Taiwan | $10 \%$ | $13 \%$ |
| Asia Pacific | $15 \%$ | $14 \%$ |

Cash and cash equivalents, short-term investments and restricted cash and investments balances were $\$ 2.2$ billion at the end of the September 2011 quarter, compared to $\$ 2.3$ billion at the end of the June 2011 quarter. The decrease in cash and cash equivalents, short-term investments and restricted cash and investments balances during the quarter was due to activity related to our stock repurchase program partially offset by cash flows from operating activities. Cash flows from operating activities were approximately $\$ 86.9$ million or $13 \%$ of revenue during the September 2011 quarter. Deferred revenue and deferred profit balances at the end of the September 2011 quarter were $\$ 179.5$ million and $\$ 112.5$ million, respectively. Lam's deferred revenue balance does not include shipments to Japanese customers, to whom title does not transfer until customer acceptance. Shipments to Japanese customers are classified as inventory at cost until the time of acceptance. The anticipated future revenue from shipments to Japanese customers was approximately $\$ 43.4$ million as of September 25, 2011.
"As expected, our September quarter results reflect the impact of ongoing macroeconomic uncertainty on wafer fab equipment spending," said Steve Newberry, Lam's chief executive officer and vice chairman. "While customers are currently delaying near-term expansion plans, they continue to make investments in leading edge technologies that enhance their competitiveness. We expect that when advanced technology device demand increases, capacity expansion will resume. Lam traditionally excels in this environment, and we remain focused on making the critical strategic investments that extend our technical leadership, strengthen customer trust and drive our long-term growth," Newberry concluded.

## Caution Regarding Forward-Looking Statements

Statements made in this press release that are not statements of historical fact are forward-looking statements and are subject to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements relate, but are not limited, to the anticipated revenue from shipments to Japanese customers, our future commitment to our current strategic priorities, future wafer fab spending, customer investment decisions, and our ability to sustain technical leadership, strengthen our customer relationships and drive long term growth. Some factors that may affect these forward-looking statements include: business conditions in the consumer electronics industry, the semiconductor industry and the overall economy; the strength of the financial performance of our existing and prospective customers; the introduction of new and
innovative technologies; the occurrence and pace of technology transitions and conversions; the actions of our competitors, consumers, semiconductor companies and key suppliers and subcontractors; and the success of research and development and sales and marketing programs. These forward-looking statements are based on current expectations and are subject to uncertainties and changes in condition, significance, value and effect as well as other risks detailed in documents filed by us with the Securities and Exchange Commission, including specifically our report on Form $10-\mathrm{K}$ for the year ended June 26,2011 . These uncertainties and changes could cause actual results to vary from expectations. The Company undertakes no obligation to update the information or statements made in this press release.

Lam Research Corporation is a major provider of wafer fabrication equipment and services to the world's semiconductor industry. Lam's common stock trades on The NASDAQ Global Select Market SM under the symbol LRCX. Lam is a NASDAQ-100® company. For more information, visit www.lamresearch.com.
