## Lam Research Corporation Reports Financial Results for the Quarter Ended December 23, 2012

FREMONT, CA -- (Marketwire) -- 01/23/13 -- Lam Research Corp. (NASDAQ: LRCX)

- Reported revenue of $\$ 860.9$ million for the December 2012 quarter, down 5\% from the prior quarter
- Reported GAAP gross margin of $36.6 \%$, GAAP operating margin of $0.5 \%$ and GAAP EPS of $\$ 0.04$
- Delivered non-GAAP gross margin of 44.2\%, operating margin of $11.5 \%$, and EPS of $\$ 0.45$
- Repurchased 10 million shares of common stock, completing approximately $\$ 1.4$ billion of $\$ 1.6$ billion in announced buybacks

Lam Research Corp. (NASDAQ: LRCX) today announced financial results for the quarter ended December 23, 2012. Highlights for the quarter were as follows:

Lam Research Corporation
Financial Highlights for the Quarter Ended December 23, 2012
(in thousands, except per share data and percentages)
U.S. GAAP Non-GAAP

Revenue:
\$ 860,886 \$ 860,886

Operating Margin:
0.5\% 11.5\%

Net Income:
\$ 6,408 \$ 77,278

Diluted EPS:
\$ $\quad 0.04$ \$ 0.45

Revenue for the period was $\$ 860.9$ million, gross margin was $\$ 315.4$ million, or $36.6 \%$ of revenue, operating expenses were $\$ 311.4$ million, and net income was $\$ 6.4$ million, or $\$ 0.04$ per diluted share on a GAAP basis. This compares to revenue of $\$ 906.9$ million, gross margin of $\$ 333.9$ million, or $36.8 \%$, operating expenses
of $\$ 317.2$ million, and net income of $\$ 2.8$ million, or $\$ 0.02$ per diluted share, for the September 2012 quarter. Shipments for the December 2012 quarter were $\$ 803$ million, compared to $\$ 935$ million during the September 2012 quarter.

In addition to U.S. Generally Accepted Accounting Principles (GAAP) results, this commentary contains nonGAAP financial measures. The Company's non-GAAP results for both the December 2012 and September 2012 quarters exclude costs associated with the fair value impact of acquisition-related inventory, amortization related to intangible assets acquired in the Novellus transaction, certain acquisition and integration-related costs, the amortization of convertible note discounts, and rationalization of certain product configurations. Additionally, the December 2012 quarter non-GAAP results exclude restructuring charges and tax benefits on successful resolution of certain tax matters. See "Use of Non-GAAP Financial Measures" below for additional information.

## Non-GAAP Financial Measures

On a non-GAAP basis, net income was $\$ 77.3$ million, or $\$ 0.45$ per diluted share, in the December 2012 quarter compared to $\$ 97.0$ million, or $\$ 0.53$ per diluted share, for the September 2012 quarter. Gross margin for the December 2012 quarter was $\$ 380.5$ million, or $44.2 \%$, compared to $\$ 402.3$ million, or $44.4 \%$, for the September 2012 quarter. Gross margin performance reflected unfavorable factory utilization as well as product and customer-mix changes. Non-GAAP operating expenses for the December 2012 quarter decreased to $\$ 281.5$ million compared with the September quarter of $\$ 284.3$ million. This was primarily due to lower incentive compensation stemming from decreased business volumes and reductions in field and support-group spending.
"Lam closed calendar year 2012 by delivering solid financial performance for the December quarter and strong execution against our integration plans," stated Martin Anstice, Lam's president and chief executive officer. "In the latter part of 2012, demand for semiconductor equipment declined, particularly in the NAND memory segment. Although we expect these conditions will continue in the near-term we remain optimistic in the longterm about the catalysts and inflections for growth. In this environment, we remain committed to funding new technology investments and positioning next-generation products with customers, and at the same time, retaining day-to-day discipline necessary to deliver predictable operating performance."

Cash and cash equivalents, short-term investments and restricted cash and investment balances decreased to $\$ 2.7$ billion as planned at the end of the December 2012 quarter, compared to $\$ 2.9$ billion at the end of the September 2012 quarter. This decrease was primarily the result of approximately $\$ 355$ million of stock repurchases, offset by approximately $\$ 193$ million in cash flow from operating activities during the December 2012 quarter. Deferred revenue and deferred profit balances at the end of the December 2012 quarter decreased to $\$ 282.0$ million and $\$ 169.0$ million, respectively, as compared to $\$ 363.5$ million and $\$ 208.1$ million, respectively, at the end of the September 2012 quarter. Lam's deferred revenue balance does not include shipments to Japanese customers, to whom title does not transfer until customer acceptance. Shipments to Japanese customers are classified as inventory at cost until the time of acceptance. The anticipated future revenue from shipments to Japanese customers was approximately $\$ 45.7$ million as of December 23, 2012.

The geographic distribution of shipments and revenue during the December 2012 quarter is shown in the following table:

Region Shipments Revenue

| North America | $29 \%$ | $24 \%$ |
| :--- | :---: | :---: |
| Europe | $9 \%$ | $8 \%$ |
| Japan | $14 \%$ | $10 \%$ |
| Korea | $12 \%$ | $12 \%$ |
| Taiwan | $22 \%$ | $26 \%$ |
| Asia Pacific | $14 \%$ | $20 \%$ |

## Use of Non-GAAP Financial Measures

Management uses non-GAAP gross margin, operating income, operating expenses, operating margin, net income, and net income per diluted share to evaluate the Company's operating and financial results. The Company believes the presentation of non-GAAP results is useful to investors for analyzing business trends and comparing performance to prior periods, along with enhancing the investors' ability to view the Company's results from management's perspective. Tables presenting reconciliations of non-GAAP results to U.S. GAAP results are included at the end of this press release and on the Company's web site
at http://investor.lamresearch.com.

## Caution Regarding Forward-Looking Statements

Statements made in this press release that are not of historical fact are forward-looking statements and are subject to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Such forwardlooking statements relate to, but are not limited to, the anticipated revenue from shipments to Japanese customers, our expectations for growth and future demand for semiconductor equipment, and our plans pertaining to expense management, funding technology investments and positioning our products with customer as well as our ability to execute on those plans. Some factors that may affect these forward-looking statements include: business conditions in the consumer electronics industry, the semiconductor industry and the overall economy; the strength of the financial performance of our existing and prospective customers; the introduction of new and innovative technologies; the occurrence and pace of technology transitions and conversions; the actions of our competitors, consumers, semiconductor companies and key suppliers and subcontractors; and the success of research and development and sales and marketing programs. These forward-looking statements are based on current expectations and are subject to uncertainties and changes in condition, significance, value and effect as well as other risks detailed in documents filed by us with the Securities and Exchange Commission, including specifically our report on Form 10-K for the year ended June 24, 2012 and Form 10-Q for the three months ended September 23, 2012. These uncertainties and changes could cause actual results to vary from expectations. The Company undertakes no obligation to update the information or statements made in this press release.

## About Lam Research

Lam Research Corp. is a major supplier of innovative wafer fabrication equipment and services to the worldwide semiconductor industry. For more than 30 years, the Company has driven continuous improvements in chip performance, power consumption, and cost, contributing to the global proliferation of smartphones, computers, tablets, and other electronic products. Lam Research has been the leading supplier of high-throughput plasma etch equipment for more than a decade and expanded its product offerings in 2008 to include single-wafer clean systems. The Company added thin-film deposition and wafer surface preparation technologies to its product portfolio in 2012 with the acquisition of Novellus Systems, Inc. Headquartered in Fremont, Calif., Lam Research maintains a global network of service facilities throughout North America, Asia, and Europe to rapidly meet the needs of its global customer base. It is an S\&P $500 ®$ company whose common stock trades on the NASDAQ Global Select Market(SM) under the symbol LRCX. For more information, please visit http://www.lamresearch.com.
