U.S. GAAP Financial Results

For the December 2018 quarter, revenue was \$2,523 million, gross margin was \$1,145 million, or 45.4% of revenue, operating expenses were \$455 million, operating income was 27.4% of revenue, and net income was \$569 million, or \$3.51 per diluted share on a U.S. GAAP basis. This compares to revenue of \$2,331 million, gross margin of \$1,058 million, or 45.4% of revenue, operating expenses of \$466 million, operating income of 25.4% of revenue, and net income of \$533 million, or \$3.23 per diluted share, for the quarter ended September 23, 2018 (the "September 2018 quarter").

Non-GAAP Financial Results

For the December 2018 quarter, non-GAAP gross margin was \$1,167 million or 46.3% of revenue, non-GAAP operating expenses were \$440 million, non-GAAP operating income was 28.8% of revenue, and non-GAAP net income was \$628 million, or \$3.87 per diluted share. This compares to non-GAAP gross margin of \$1,081 million or 46.4% of revenue, non-GAAP operating expenses of \$451 million, non-GAAP operating income of 27.0% of revenue, and non-GAAP net income of \$555 million, or \$3.36 per diluted share for the September 2018 quarter.

"Lam delivered solid results in the December quarter, and concluded the 2018 calendar year with record revenue and earnings per share performance," said Timothy Archer, Lam Research's President and Chief Executive Officer. "While near-term market trends reflect adjustments after a period of tremendous growth in semiconductor demand, I am confident that our focus on Deposition and Etch technology leadership as well as growth in our installed-base business positions us well for the long term."

Balance Sheet and Cash Flow Results

Cash and cash equivalents, short-term investments, and restricted cash and investments balances remained steady at \$3.9 billion at the end of the December 2018 quarter as compared to the end of the September 2018 quarter. Cash flow generated by operating activities during the December 2018 quarter of \$642 million was primarily used for \$360 million of repayments on short-term borrowings; \$168 million of dividends paid to stockholders; and \$106 million of capital expenditures.

Deferred revenue and deferred profit at the end of the December 2018 quarter decreased to \$493 million and \$432 million, respectively, as compared to \$626 million and \$542 million, respectively, at the end of the September 2018 quarter. Lam's deferred revenue balance does not include shipments to customers in Japan, to whom title does not transfer until customer acceptance. Shipments to customers in Japan are classified as inventory at cost until the time of acceptance. The estimated future revenue from shipments to customers in Japan was approximately \$262 million as of December 23, 2018 and \$454 million as of September 23, 2018.

Geographic Distribution

The geographic distribution of revenue during the December 2018 quarter is shown in the following table:

Region	Revenue	
Japan	27	%
Korea	25	%
Taiwan	17	%
China	14	%

Southeast Asia	7	%
United States	5	%
Europe	5	%

Outlook

For the March 2019 quarter, Lam is providing the following guidance:

The information provided above is only an estimate of what the Company believes is realizable as of the date of this release, and does not incorporate the potential impact of any business combinations, asset acquisitions, divestitures, restructuring, balance sheet valuation adjustments, financing arrangements, other investments, or other significant transactions that may be completed after the date of this release. U.S. GAAP to non-GAAP reconciling items provided include only those items that are known and can be estimated as of the date of this release. Actual results will vary from this model and the variations may be material. Reconciling items included above are as follows:

- · Gross margin as a percentage of revenue amortization related to intangible assets acquired through business combinations, \$22 million
- Operating income as a percentage of revenue amortization related to intangible assets acquired through business combinations, \$34 million.
- Earnings per share amortization related to intangible assets acquired though business combinations, \$34 million; amortization of note discounts, \$1 million; and associated tax benefit for non-GAAP items (\$5 million); totaling \$30 million.

Use of Non-GAAP Financial Results

In addition to U.S. GAAP results, this press release also contains non-GAAP financial results. The Company's non-GAAP results for both the December 2018 and September 2018 quarters exclude amortization related to intangible assets acquired through business combinations, restructuring charges, amortization of note discounts, tax benefit of non-GAAP items, and estimated income tax impacts associated with U.S. tax reform. Additionally, the December 2018 quarter non-GAAP results exclude income tax benefit on the conclusion of tax matters related to a prior business combination.

Management uses non-GAAP gross margin, operating expense, operating income, net income, and net income per diluted share to evaluate the Company's operating and financial results. The Company believes the presentation of non-GAAP results is useful to investors for analyzing business trends and comparing performance to prior periods, along with enhancing investors' ability to view the Company's results from management's perspective. Tables presenting reconciliations of non-GAAP results to U.S. GAAP results are included at the end of this press release and on the Company's website at http://investor.lamresearch.com.

Caution Regarding Forward-Looking Statements

Statements made in this press release that are not of historical fact are forward-looking statements and are subject to the safe harbor provisions created by the Private Securities Litigation Reform Act of 1995. Such forward-looking statements relate to, but are not limited to: the estimated future revenue from shipments to customers in Japan; the timing and amount of revenue and profit earned from any booked deferred revenue and profit; market trends and semiconductor demand; our technology leadership; our installed base growth; our long term positioning; technology demand trends; the legal and business factors that may affect our future tax rate; our engineering capabilities; our commitment to customer success; our continued ability to accelerate innovation and enhance device performance; and our guidance for revenue, gross margin, operating income (both as a dollar value and a percentage of revenue), net income or earnings per diluted share, and diluted share count. Some factors that may affect these forward-looking statements include: business, political and/or regulatory conditions in the consumer electronics industry, the semiconductor industry and the overall economy may deteriorate or change; and the actions of our customers and competitors may be inconsistent with our expectations, as well as the other risks and uncertainties that are described in the documents filed or furnished by us with the Securities and Exchange Commission, including specifically the Risk Factors described in our annual report on Form 10-K for the fiscal quarter ended September 23, 2018. These uncertainties and changes could materially affect the forward looking statements and cause actual results to vary from expectations in a material way. The Company undertakes no obligation to update the information or statements made in this release.
