Lam Research Corporation Announces The Promotion Of Stephen G. Newberry To President And COO

Lam Research Corporation Announces The Promotion Of Stephen G. Newberry To President And COO FREMONT, Calif., July 13, 1998 - Lam Research Corporation (Nasdaq: LRCX), a leading supplier of wafer fabrication equipment to the worldwide semiconductor industry, today announced the promotion of Stephen G. Newberry to the position of president and chief operating officer, reporting to James W. Bagley, chief executive officer. Mr. Newberry joined Lam as executive vice president and chief operating officer in August of 1997. In his new position he will be responsible for all global operations of the company.

“Steve has established a track record of success in executive positions over the years and has demonstrated his extensive executive management skills at Lam, making many significant and extremely valuable contributions to us in his first year,” said Jim Bagley. “His leadership, combined with his experience in managing global business activities, will be even more valuable to us as we grow our business, improve our operating performance, and continue to be a leading contributor to our industry’s expanding technology.”

Lam Research Corporation is a leading supplier of wafer fabrication equipment and services to the world’s semiconductor industry. The company provides processing solutions for dry etch, chemical mechanical planarization (CMP), and post CMP wafer clean, three essential steps in the fabrication of integrated circuits. Lam’s headquarters are located in Fremont, California. The company’s common stock trades on the Nasdaq National Market under the symbol LRCX. Lam’s World Wide Web address is http://www.lamrc.com.
